

FLEXYLED CH

FLEXIBLE LINEAR LED MODULE

FLEXYLED CH comes in a 5m or 20m long roll that can be divided every 5cm, without wasting pieces of strip. The special connector allows the connection between the remaining pieces of strip.

A special **CONNECTOR** makes it possible to install FLEXYLED CH strips up to a maximum length of 6 meters in continuous rows. The compact dimensions of this accessory ensure even light projection without shadow areas.

The **POWER CORD** connects easily to FLEXYLED CH without the use of any equipment and without soldering cables.

The **INTERCONNECTION CABLE** connects two modules and guarantees the electrical continuity.

FLEXYLED CH

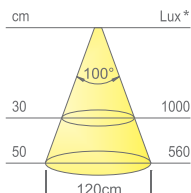

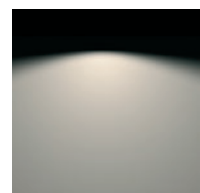

12Vdc

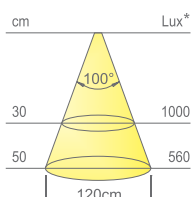

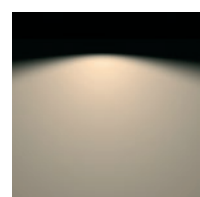

Micro 12

UFORM CODE	LENGTH	WATT & VOLT	LIGHT COLOUR	LED	PER PACK
LG-20MLEDNW	2000mm	96W @ 12Vdc	Natural white	1200	1
LG-5MLEDNW	2000mm	24W @ 12Vdc	Natural white	300	1
LG-20LEDWW	500mm	96W @ 12Vdc	Warm white	1200	1
LG-5MLEDWW		24W @ 12Vdc	Warm white	300	1

Led converter not included. To be ordered separately.

Colour appearance natural white
Colour temperature 4300 K
Luminous efficiency 85 lm/W
CRI Ra ≥ 80

Colour appearance warm white
Colour temperature 3100 K
Luminous efficiency 85 lm/W
CRI Ra ≥ 80

* Values referred to FLEXYLED CH 2000mm

FEATURES

- Material:** thermoplastic polymers
- Finish:** steel
- Light source:** SMD LED module
- Connector:** Micro 12
- Wiring:** 2000mm
- Application type:** wall units, under wall cabinets or under shelves
- Installation:** recess
